

## Principais comandos CSS

| COMANDO           | VALOR                                      |
|-------------------|--|
| font-family       | arial, verdana, tahoma                     |
| font-style        | italic                                     |
| font-weight       | normal, bold                               |
| font-size         | 12px, 14px, 16px                           |
| color             | #000000                                    |
| background-color  | transparent, color                         |
| background-image  | none, url                                  |
| background-repeat | repeat, repeat-x, repeat-y, no-repeat      |
| background        | color, image, repeat, attachment, position |
| text-decoration   | none, underline                            |
| text-align        | left, right, center, justify               |
| line-height       | pixel                                      |
| margin-top        | pixel, %, auto padrão: 0                   |
| margin-right      | pixel, %, auto padrão: 0                   |
| margin-bottom     | pixel, %, auto padrão: 0                   |
| margin-left       | pixel, %, auto padrão: 0                   |
| margin            | top, right, bottom, left                   |
| position          | static, absolute, relative, fixed          |
| z-index           | auto, integer                              |
| width             | auto, length, percentage                   |
| height            | auto, length, percentage                   |
| display           | none, block                                |
| border            |  |
|                   |  |
| <b>UNIDADES</b>   |  |
| em                | proporcional ao navegador                  |
| %                 | proporcional ao elemento pai               |
| px                | pixels                                     |
